

Green Transportation Summit & Expo (GTSE) Announced as EVS36 Collaborating Partner

Green Transportation
Summit & Expo

October 14, 2022 – Washington, DC – The [Green Transportation Summit & Expo \(GTSE\)](#), a West Coast leader in fleet modernization and clean transportation, will be a collaborating partner with the [Electric Drive Transportation Association \(EDTA\)](#) at [EVS36](#), to be held June 11 thru 14, 2023 in Sacramento, California. Focusing on electrification in medium and heavy-duty vehicle and off-road equipment fleets, GTSE will bring comprehensive programming to EVS36 on this critical and fast-growing sector. GTSE and EDTA are excited to work together in building EVS' global conversation and showcase for commercial EVs and mobile equipment.

###

About EVS36

Organized and hosted by EDTA, the 36th Electric Vehicle Symposium and Exposition (EVS36) is the premier showcase for industry innovation and is the longest-running international conference devoted to electric transportation and technologies.

Featuring compelling presentations from industry and thought leaders, a cutting-edge exposition with exhibitors from around the globe and multiple networking events, EVS36 will provide a wide array of opportunities to showcase leadership, learn from the experts, and educate the public and the media about electric transportation. Learn more and register today at www.evs36.com.
